our

Pets...

Whose pet is whose?

My pet follows me around and likes being cuddled and then she purrs.

My pet loves to have a good scratch! Mud helps keep her skin nice.

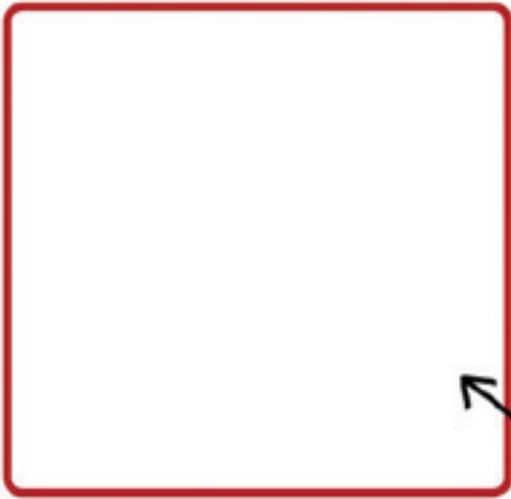

Our pet is noisy, peckish most of the time and she likes taking dust baths!

My pet is clever and loves to run around and even brings the stick back when I've thrown it!

My pet talks and likes to eat marmalade on toast as a treat.

My pet loves to eat lettuce, I love his fluffy tail!
